## **Midsouth Consulting Group Makes Business TN Hot 100 List**

### **FOR IMMEDIATE RELEASE**

**Nashville, TN—November 21, 2008:** Midsouth Consulting Group is one of 100 companies to watch on *Business TN* magazine's Hot100 list.

The Hot100 list spotlights companies that are enriching Tennessee's economy, providing jobs and fueling the Volunteer State's entrepreneurial culture. "Fast-growing, emerging or in some cases simply full of promise, they represent the best Tennessee has to offer in terms of entrepreneurial vision and growth," said editor Drew Ruble in the article, which appeared in the magazine's November/December 2008 issue.

Selection was based on several factors, ranging from revenue and employee growth to growth over a period of years, growth as compared to industry average, projected growth and projected pitfalls, among other criteria.

"It's an honor to be included," said CEO and General Partner Jason Carpenter, who has guided the company's rapid growth since taking the helm a decade ago. Today, Nashville's largest locally-owned provider of integrated workforce management and administration services provides payroll processing, retirement plan administration and human resources outsourcing solutions to more than 800 clients nationwide from offices in Brentwood, TN and Jacksonville, FL. The company plans to open offices in Birmingham and Louisville over the next two years.
